 - Task 4: Test Device Procurement App..... 9

Importing Module 3 Completed

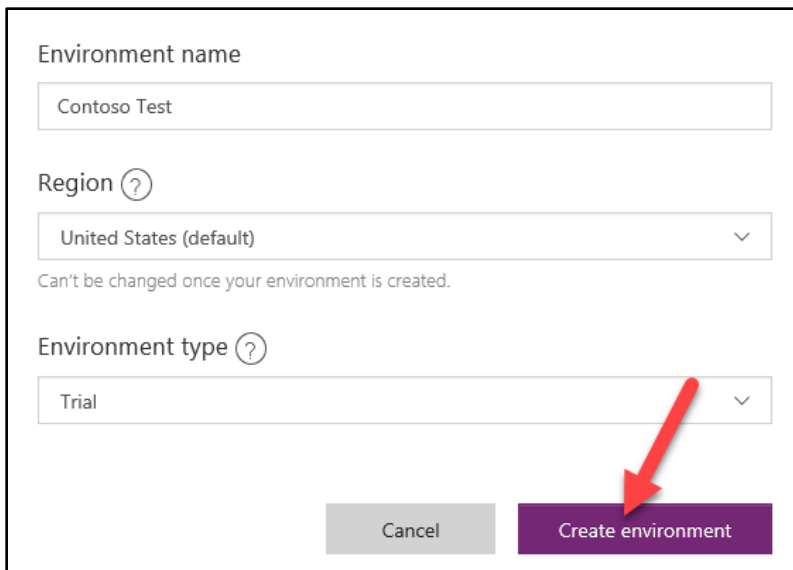

Follow the steps below, if you did not complete Modules 1, 2 or 3 and would like to skip to Module 4

Task 1: Create a new environment

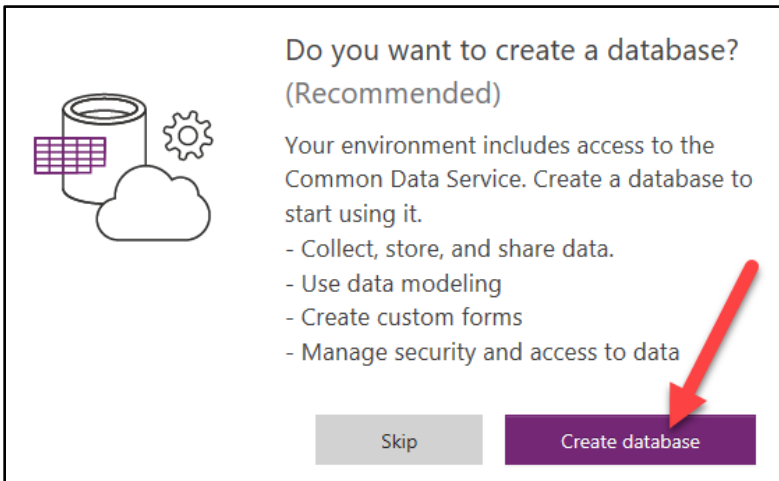

1. Open a new browser tab, navigate to <https://admin.powerapps.com> select **Environments** and click **New Environment**.

2. Provide an **Environment Name**, select **Region**, select **Environment Type**, and click **Create Environment**.

3. Click **Create database**.

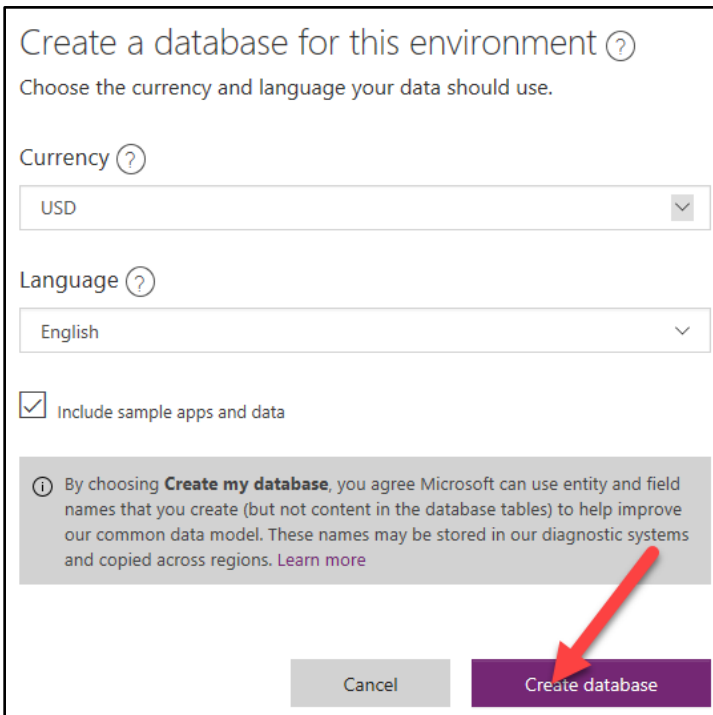

Do you want to create a database?
(Recommended)

Your environment includes access to the Common Data Service. Create a database to start using it.

- Collect, store, and share data.
- Use data modeling
- Create custom forms
- Manage security and access to data

Skip Create database

4. Select **Currency** and **Language**, and then click **Create database**.

Create a database for this environment ?
Choose the currency and language your data should use.

Currency ?
USD

Language ?
English

☒ Include sample apps and data

i By choosing **Create my database**, you agree Microsoft can use entity and field names that you create (but not content in the database tables) to help improve our common data model. These names may be stored in our diagnostic systems and copied across regions. [Learn more](#)

Cancel Create database

Wait for the database to be created

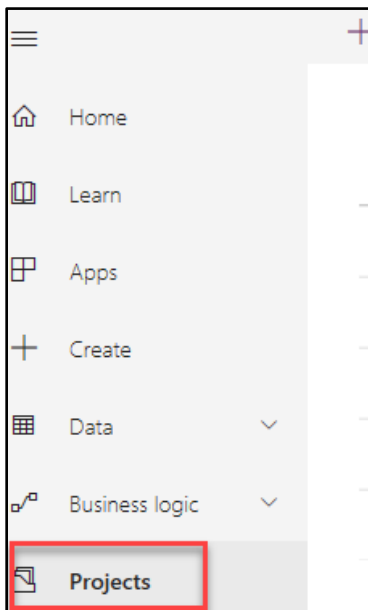

Task 2: Import the solution

In this task, you will import the completed module 3 solution.

1. Open a new browser tab, navigate to <https://web.powerapps.com>
2. Make sure to select the correct environment.

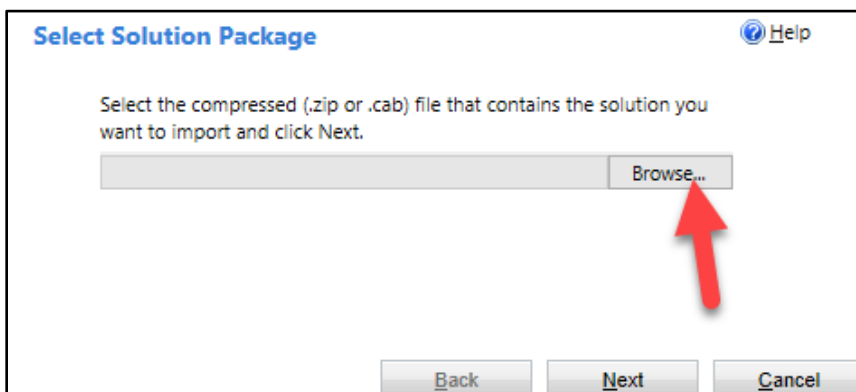

3. Select **Project**.

4. Click **Import**.

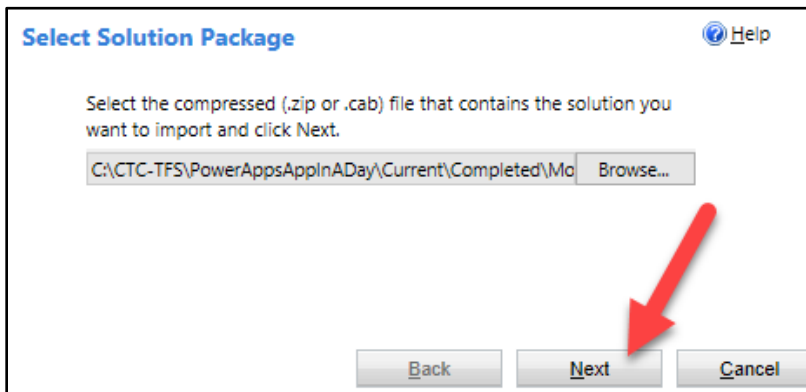

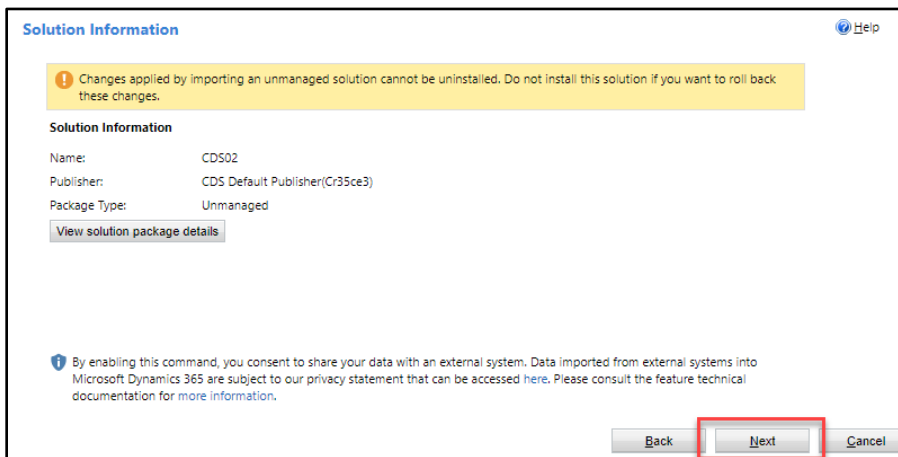

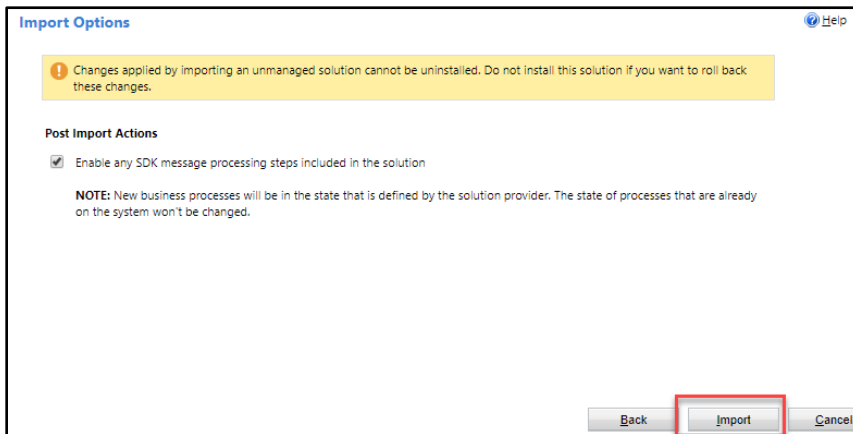

5. Click **Browse**.

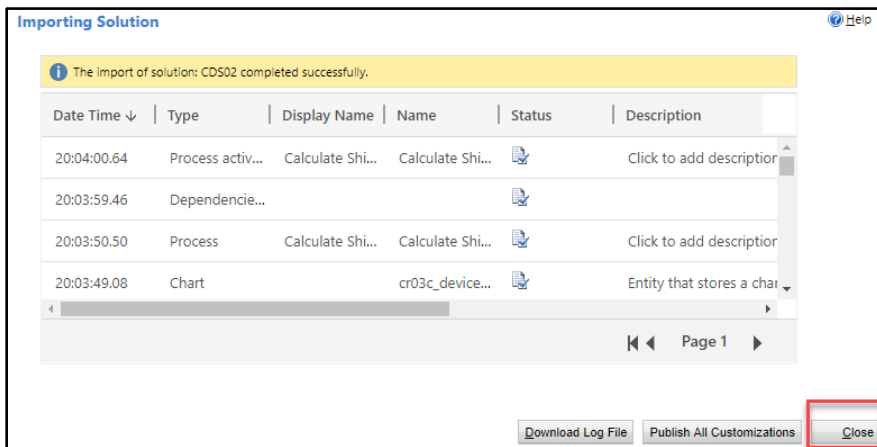

6. Select the Module 3 Completed Solution zip file located in Module 3 Completed folder and click **Open**.

7. Click **Next**.8. Click **Next**.9. Click **Import**.

10. Wait for the solution import to complete and click Close.

11. Click **Publish All Customizations**.

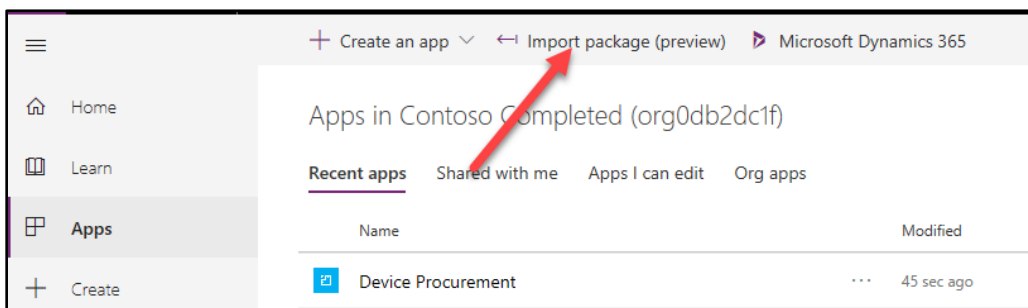

12. Close the Solutions tab.

Task 3: Import the application

In this task, you will import the completed module 3 application.

1. Select **Apps** and click **Import Package**.

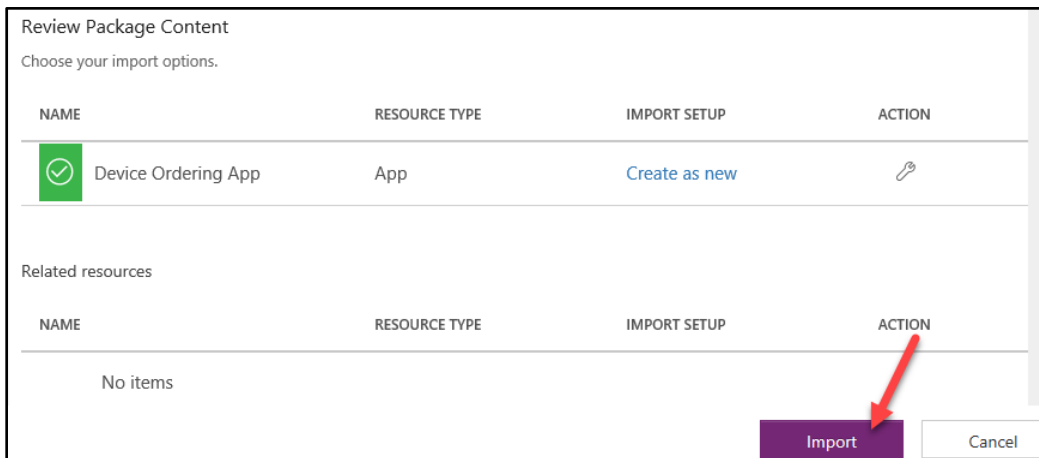

2. Click **Upload**.

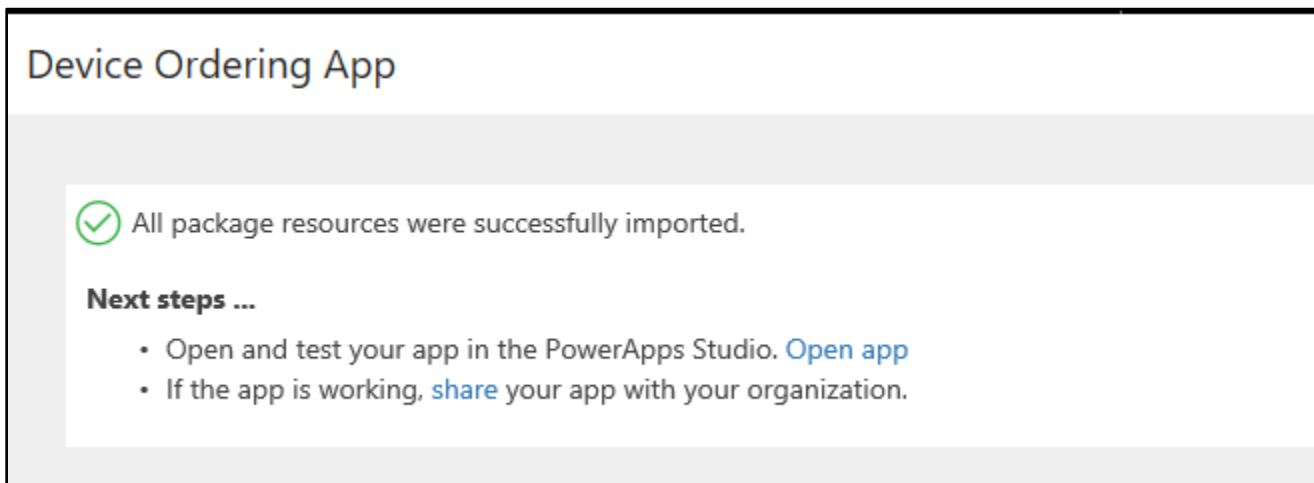

3. Select the Module 3 Completed Application zip file located in Module 3 completed folder and click **Open**.

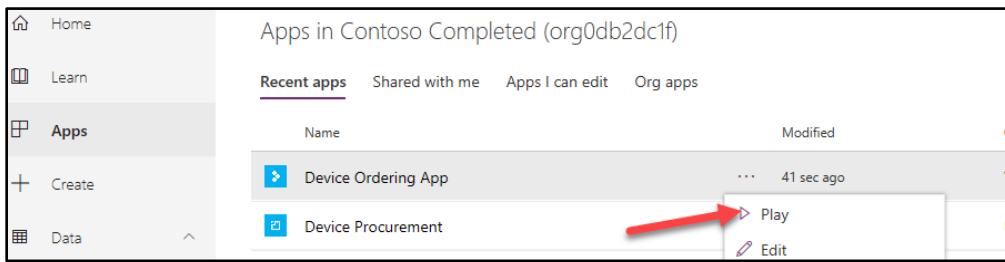

4. Click **Import**.

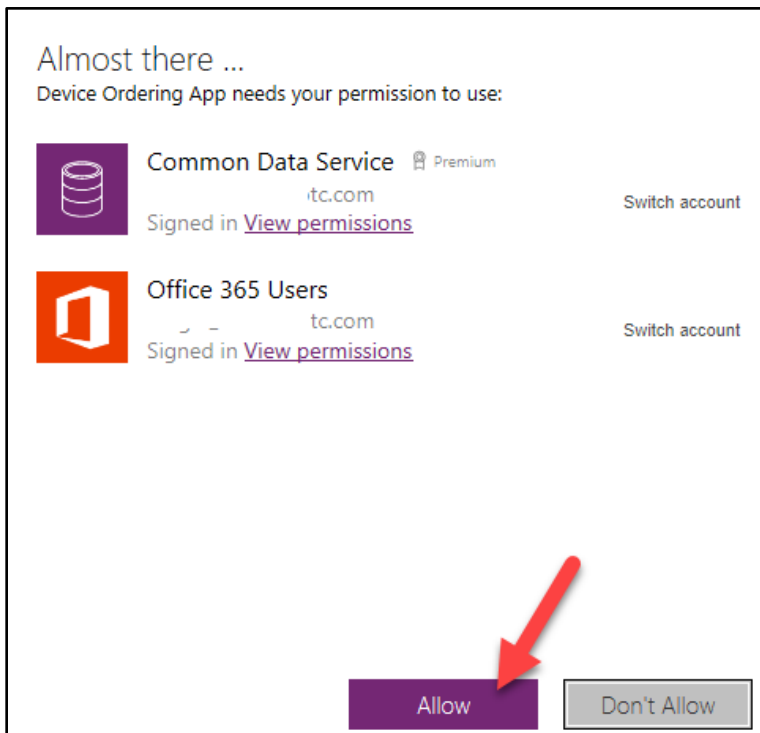

Wait for the application import to complete.

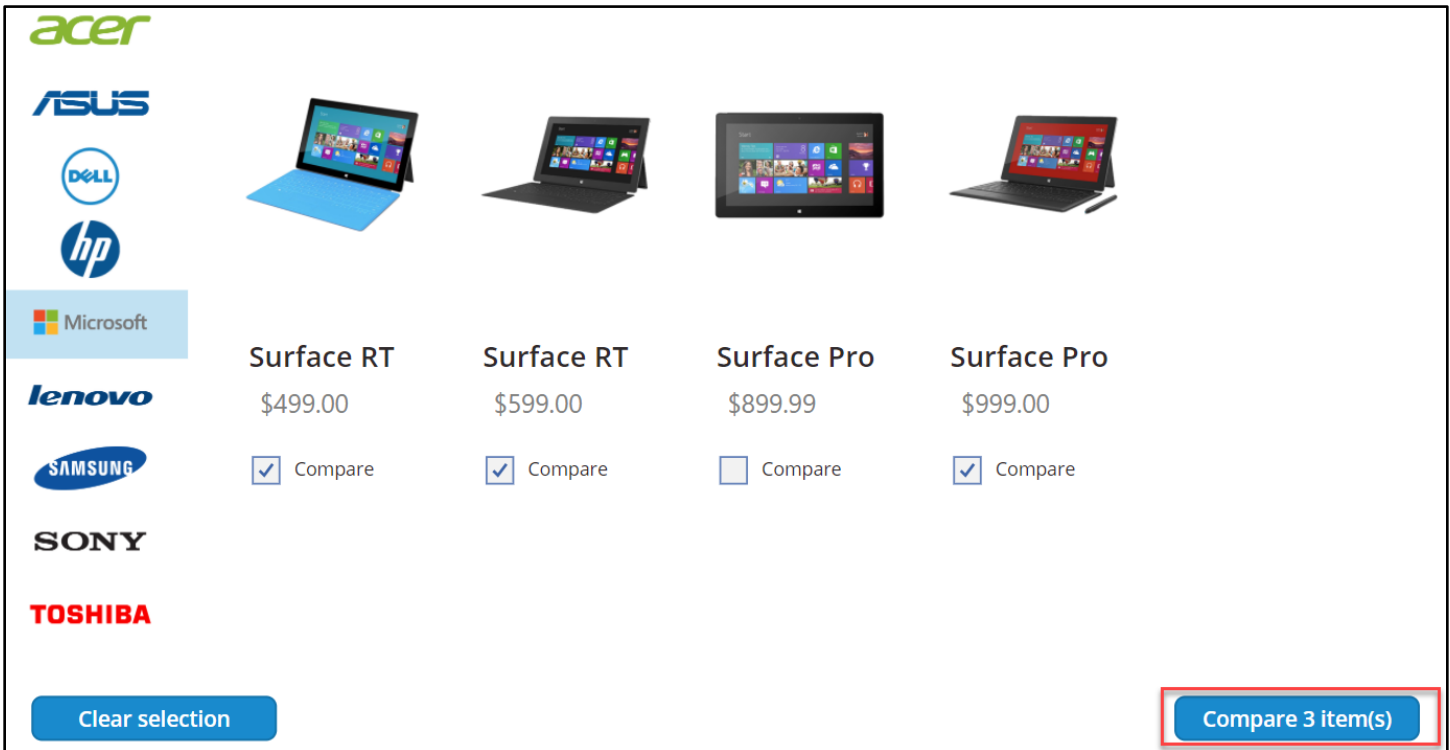

5. Select Apps, click on the ... button of the application you imported and click **Play**.

6. Click **Allow**.

7. Select few devices and click **Compare**.
